

Vestavia Hills City Schools				
COVID-19 Attendance Data				
About This Information				
Information shown on this spreadsheet will be updated each Monday by VHCS Health Services staff (Except MLK, Jr. Day; updated on Tuesday).				
It includes only known and/or reported COVID-related absences for students and staff.				
The district and school-by-school weekly datasets will be updated each week. Absences may vary slightly based on timing of daily attendance reports.				
To ensure protection of student privacy information, no school will report exact numbers of student COVID absences if the school's total number of absences is less than 10.				
For comparison with other school systems and the ADPH Dashboard, the "Student Absences at End of Week" dataset shows students who were absent on each Friday of the school year.
