

Vestavia Hills City Schools COVID-19 Attendance Data

About This Information

Information shown on this spreadsheet is updated each Monday by VHCS Health Services staff. It includes only known and/or reported COVID-related absences for students and staff. The district and school-by-school weekly datasets will be updated each Monday beginning August 23, 2021. Absences may vary slightly based on timing of daily attendance reports. To ensure protection of student privacy information, no school will report exact numbers of student COVID absences if the school's total number of absences is less than 10. For comparison with other school systems and the ADPH Dashboard, the Student Absences at End of Week displays students who were absent on each Friday of the school year.
